COASTAL ENERGY

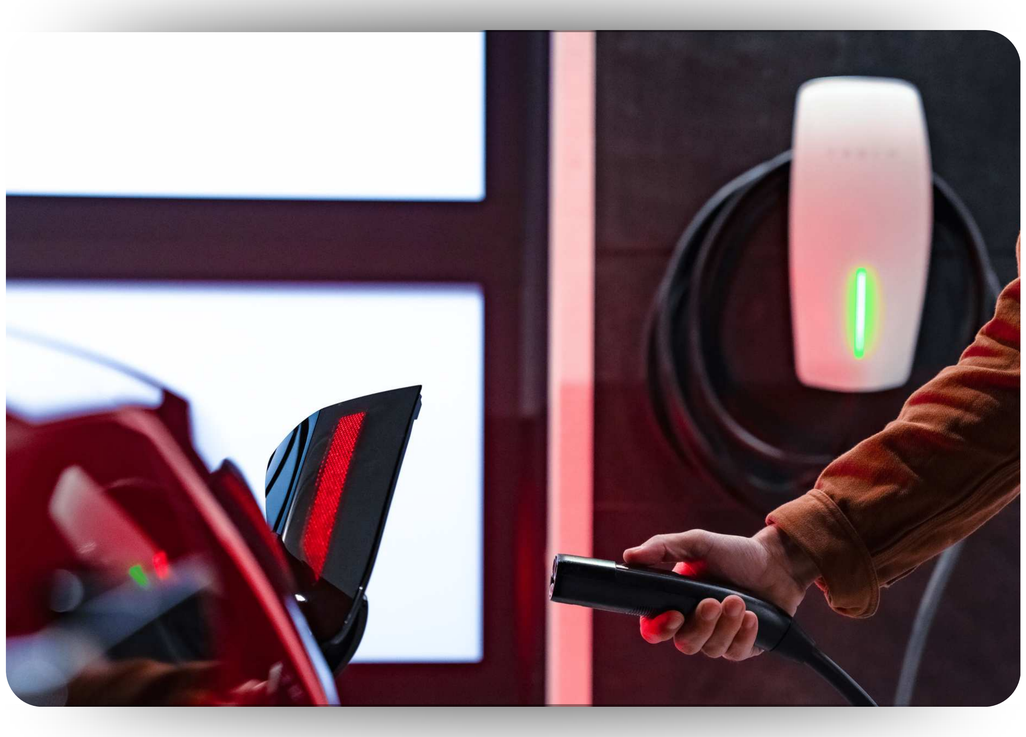

YOUR NEW TESLA **NOW POWERS YOUR HOME**

With Tesla Powershare, your new Tesla can power your home, providing extra backup power during an outage.

Licensed & Insured CCC1335978 | EC13013993

What is Powershare?

Powershare lets your Tesla send power from its battery back into your home when the grid goes down, working together with a Powerwall 3.

POWERSHARE-READY HOME BACKUP BUNDLE FOR $15,997

WHY IT MATTERS

Use your Tesla's Battery

Stay powered when the grid goes down with reliable backup energy for your home.

Up to 2+ Days of Battery Backup

On top of your Powerwall 3. Depending on vehicle and home energy use.

Automatic During an Outage

Your Tesla supplies your home automatically while plugged in. No manual switching.
